This message was sent to MCIR Notify, IAP, LHD Health Officers, LHD Medical Directors, MCIR/SIRS, MDE, MiLeap, Bio Clerk, PH Imms Lead, MSMS, Tribal Health Coordinators, MCIR Pharmacy Contacts, DSO and Immunization listservs.

Subject: MCIR Modernization: Updates on transitioning to a new IIS, STC|ONE

MCIR MOD Project Highlights – July 2025

This month's update highlights some of the key activities currently underway for MCIR's transition to STC|ONE. From data quality improvements to system configuration and stakeholder engagement, each step is carefully planned to support a seamless experience for all MCIR users.

DATA MILESTONE CELEBRATION

MCIR recently reached a major data quality milestone! MCIR contracted LexisNexis to verify and update contact information—such as phone numbers and addresses—for adult records. The legacy vendor is applying these updates to the production database. This effort ensures the most accurate data possible as MCIR prepares for the transition to STC|ONE.

MCIR MODERNIZATION WEBSITE UPDATES

The MCIR Modernization website was updated with two new [resources](#) at the bottom of the page. These provide a snapshot of the project objectives and benefits.

STChealth Visiting in August

Our vendor, STChealth, will return to Lansing in mid-August to meet with project sponsors and continue planning efforts. These discussions will help shape the implementation roadmap and define upcoming project milestones for the transition to STC|ONE. Key takeaways from the visit, along with more details on the roadmap, will be shared in the August external email update.

STAY CONNECTED

Visit the [MCIR Modernization website](#) for ongoing updates, helpful resources, and timeline information. If you have any questions or suggestions about the transition, please contact us at MDHHS-MCIRTransition@michigan.gov.

Thank you for your continued engagement and support!
