This message was sent to MCIR Notify, IAP, LHD Health Officers, LHD Medical Directors, MCIR/SIRS, MiLeap, MDE, Bio Clerk, PH Imms Lead, MSMS, Tribal Health Coordinators, MCIR Pharmacy Contacts, MDHHS Program Leads, DSO and Immunization listservs.

Subject: MCIR Modernization Updates: STC|ONE Go-Live Date & Fall Events

We are excited to share important updates about the MCIR Modernization Project, including the official go-live date for the new STC|ONE system and opportunities to connect with STChealth this fall.

✅ **Go-Live Date Announced**

Following a successful two-day site visit with STChealth, the Michigan Department of Health and Human Services (MDHHS) and the Department of Technology, Management, and Budget (DTMB) are pleased to announce that the new STC|ONE MCIR Modernized system is scheduled to go live in late March 2026, with core functionality available for providers, local health departments, schools, and childcare users. Additional system enhancements will be added after a May 2026 production update, ensuring a smooth transition while allowing for continued improvements post-launch.

🎤 **Meet STChealth This Fall**

STChealth will participate at the [Fall Immunization Conference](#) with a booth and presentation on STC|ONE. Representatives will be available at these events to answer questions and demonstrate key functionality of the new system.

- **Northern Michigan University, Marquette:** October 20
- **Suburban Collection, Novi:** October 28–29

We encourage you to stop by the booth or attend the presentation to learn more about what's ahead.

★ **Did You Know?**

Michigan will be the first state to use STC's new interactive learning modules, designed to provide a dynamic and engaging training experience for MCIR users.

We will continue to share updates and resources to support a smooth transition. Thank you for your ongoing partnership. If you have any questions or suggestions about the transition, please contact us at MDHHS-MCIRTransition@michigan.gov or visit www.mcir.org/modernization.
